Output :

The screenshot shows the MySQL Workbench interface. The left sidebar displays the 'SCHEMAS' tree with 'library' expanded, showing 'student' table. The main query editor contains the SQL statement: `SELECT * FROM library.student;`. The 'Result Grid' shows 10 rows of student data. The right sidebar contains a message: 'Automatic context help is disabled. Use the toolbar to manually get help for the current caret position or to toggle automatic help.'
